20-Year National Strategy (2017 - 2037)

# Thailand's SDG Roadmap

## Awareness Raising

Promote awareness and understanding on sustainable development at national and local levels as well as encourage participation of all stakeholders in driving progress towards achieving the SDGs

## Monitoring and Evaluation

Monitor and evaluate the progress of SDG implementation through a data management system that regularly receives input data from relevant stakeholders

## Partnerships

Encourage partnerships and active engagement of all stakeholders, both at domestic and international levels, to accelerate the progress towards SDGs

## Integrating SDGs into national planning at all levels

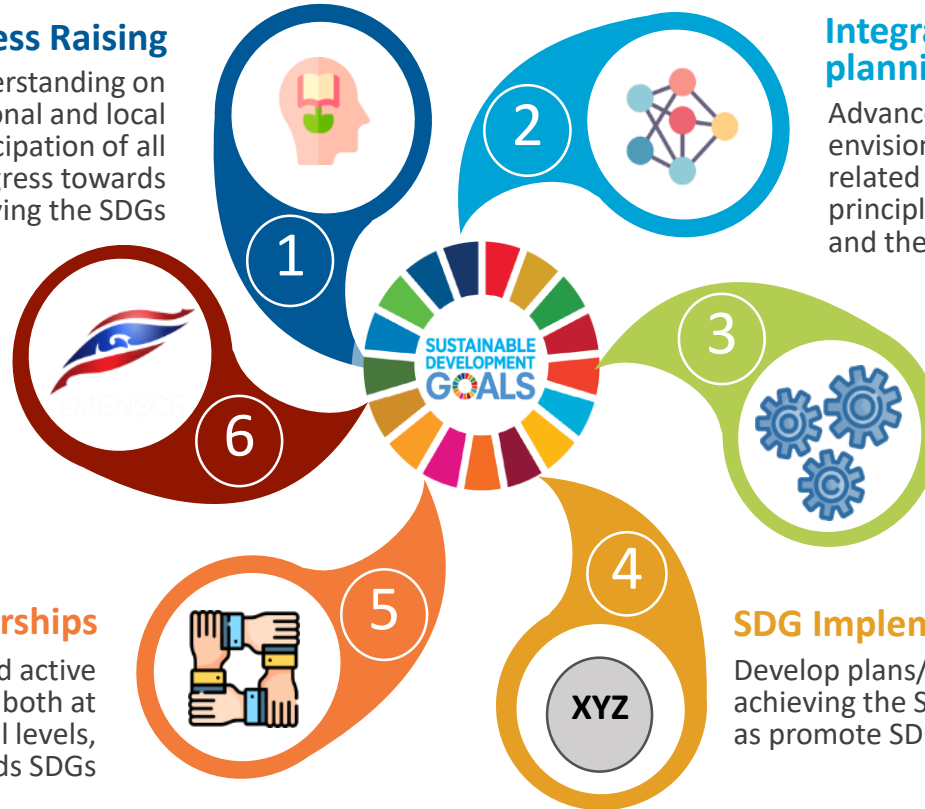

Advance the country's development as envisioned in the National Strategy and related Plans which integrate the principles of sustainable development and the SDGs

## Institutional and Coordination Mechanisms

National mechanisms provide policy guidance and support cooperation between public and private sector as well as academia and civil society to ensure coordinated and tangible results

## SDG Implementation

Develop plans/projects that contribute towards achieving the SDGs and National Strategy as well as promote SDG implementation at the local level
